

- RGF is the recognized waste water recycling leader with thousands of systems installed worldwide
- Space saving Design
- Stainless Steel Frame for years of service
- Automatic Backflush Option for filters
- Small enough to fit through standard door
- Foot print less than 14 square feet
- Best warranty in the business
- Free water analysis
- Low operating costs
- Low maintenance
- Multi media filtration

The **Model CW-MOD** modular, high volume car wash was developed specifically for existing car wash facilities with space limitations. The modules permit door access without expensive building modifications. The flexible system allows the option of utilizing your existing water storage tank or the optional 150 gallon module water tank. The flexibility of the modules allow a number of configurations to accommodate available space.

SPECIFICATIONS

Process Flow Rate	40 gpm
Centrifugal Separator	High efficiency 24"w x 72"h
Dimensions	32"w x 60"l x 85"h
Electrical	220VAC, 60 Hz, 30A, 1 phase
Final Filtration Type	Polishing Filters (3) 25 micron
Oxidation System	CO3P Catalytic Oxidation
Process Pump	1 1/2 hp centrifugal
Supply Pump	1 1/2 hp centrifugal
